Indian Society is so imbedded in the Caste System that very thing is organized on the basis of caste. Enter Indian Society and you can see caste in its glaring form. An Indian cannot eat or marry with an Indian simply because he or she does not belong to his or her caste. An Indian cannot touch an Indian because he or she does not belong to his or her caste. Go and enter politics and you can see caste reflected therein. How does an Indian vote in an election? He votes for a candidate who belongs to his own caste and no other. Even the Indian Congress exploits the Caste System for election purpose as no other political party in India does. Examine the lists of its candidates in relation to the social composition of the constituencies and it will be found that the candidate belongs to the caste which is the largest one in that constituency. The congress as a matter of fact, is upholding the Caste System against which it is outwardly raising an outcry against the existence of caste.
