BRIDGE COURSE IN STATISTICS

Bridge Course:

With a view to enhance the comprehension in Statistics a bridge course is framed to first semester B.Sc programme students. The essentials and fundamentals of Statistics are necessary to understand the subject at an easy and this will lead to a better appreciation of the subject.

Objective:

The bridge course aims to act as a buffer for the new entrants with an objective to provide adequate time for the transition to hard core of degree course. This gives them a breather, to prepare themselves before the onset of course for first year degree programme. During this interaction with the faculty and their classmates the students will be equipped with the knowledge and the confidence needed to take on bigger challenges in future.

Design:

The course consists of 10 Hrs of interactive sessions and an internal examination designed by the department which is compulsory for all students.

BASICS OF STATISTICS

Syllabus: **10 Hours**

- Definition, scope and Importance of Statistics,
- Sources of data - primary and secondary – Methods to collect primary data.
- Presentation of Data – Diagrams, Graphs and Tables

BRIDGE COURSE IN STATISTICS

Bridge Course:

With a view to enhance the comprehension in Statistics a bridge course is framed to first semester B.Sc programme students. The essentials and fundamentals of Statistics are necessary to understand the subject at an easy and this will lead to a better appreciation of the subject.

Objective:

The bridge course aims to act as a buffer for the new entrants with an objective to provide adequate time for the transition to hard core of degree course. This gives them a breather, to prepare themselves before the onset of course for first year degree programme. During this interaction with the faculty and their classmates the students will be equipped with the knowledge and the confidence needed to take on bigger challenges in future.

Design:

The course consists of 10 Hrs of interactive sessions and an internal examination designed by the department which is compulsory for all students.

BASICS OF STATISTICS

Syllabus: **10 Hours**

- Definition, scope and Importance of Statistics,
- Sources of data - primary and secondary – Methods to collect primary data.
- Presentation of Data – Diagrams, Graphs and Tables
- Measures of central tendency – Mean, Median, Mode, GM and HM- merits and demerits, properties
- Measures of dispersion – Range, Q.D, M.D and SD - merits and demerits, properties

2020-21

The department of Statistics was conducted the Bridge Course in "Basics of Statistics" for B.Sc M.S.Cs & D.S.cs Students of 2020-21 Batch prior to commencement of I-sem Syllabus as per the resolutions of Staff meeting.
